流延膜&光伏胶膜
模具系列

金纬机械
JWELL MACHINERY

CPP/CPE 流延膜模具系列

模头型号 Mold model	JW-M-A
制品厚度 Product thickness	20-400μm
产品用途 Product application	软包膜、缠绕膜、透气膜、装饰膜、保护膜..... Soft packing film/Stretch film/breathable film/decorative film/protective film

以上所列资料仅供参考，可根据客户要求量身定制!
Note: informations listed above are for reference only .The production line can be designed by customers requirements!

CPP/CPE CASTING FILM MOLD SERIES

EPE 模内复合胶膜模具

模头型号 Mold model	JW-M-A2
复合比例 Compound proportionz	1:1:1(比例可按客户需求定制) (Proportion can be customized according to customer needs)
制品优势 Product advantage	EPE三层复合模头，有效解决了光伏胶片材料容易发生交联、分解固化等现象。降低了制造成本与能源消耗，帮助客户保障产品质量稳定性的同时有效降低了生产成本。EPE three-layer composite die effectively solves the problem that photovoltaic film materials are prone to cross-linking, decomposition and solidification. It reduces manufacturing costs and energy consumption, helping customers ensure product quality stability while effectively reducing production costs.
